### Worker Safety and Health Technical Conference

October 28-29, 2008

EPA East Building

1201 Constitution Ave., NW, Washington, D.C.

#### Overview:

The US National Response Team (NRT) is an organization of 16 Federal departments and agencies responsible for coordinating emergency preparedness and response to oil and hazardous substance pollution incidents. The NRT WS&H Subcommittee focuses on WS&H issues related to oil and hazardous material response and recovery. The Subcommittee is proud to sponsor this annual technical conference to provide awareness, clarification and insight into current occupational safety and health issues facing response and recovery workers.

#### Potential Conference Topics:

- Operational Risk Management
  - ICS 215A
  - CHPPM Risk Assessment for Deployment
  - Managing Worker Fatigue During Recovery Operations
- Emergency Response and Recovery
  - Best Practices
  - Injuries and Fatalities during Response and Recovery Operations
  - Risk Messaging
  - Responding to Radiological Incidents
- Case Studies on Technical Issues Related to Field Responses

#### Networking Opportunities:

"Table Talks" will be held during lunch hour to give conference participants an opportunity to explore their areas of interest in greater detail and to network with those with similar interests.

#### Certification Maintenance (CM) Points:

CM Points for participation in this conference will be sought through The American Board of Industrial Hygienists (ABIH).
